

MIXER FOR SALT AND SPICES SUPER MIX 100

Mixer for salt and spices with the following technical feature:

- Stainless steel tank with maximum capacity of approx 100 Kg. polished with a particular shape to allow a complete mixing of the product.
- Stainless steel hopper easily removable for clearing and washing, special seal on the transmission shaft in order to avoid product leakage from the mixing tank to the space where the transmission is housed
- Stainless steel loading door with transparent polycarbonate sight glass complete with safety sensor;
- Motorization with stainless steel support.
- Electrical system centralized in a stainless steel water tight panel board.
- Tank support frame made of stainless steel tubular, complete with two fixed and two slewing wheels with brake to be easily moved;
- Stainless steel gate for unloading the product after mixing.
- Power supply 400 volt 50 Hz.
- Maximum height for product unloading 1000mm.

The machine structure is constructed entirely in stainless steel AISI 304 and anti-oxidant materials

The machine described above is in accordance with and conform to the European machine directive in the domain of safety, noise and hygiene.

TECHNICAL DATA

Electrical power installed: 2,2 kw 230/400 volt 50Hz
 Overall dimensions: 1800 x 995 x h 1700 mm
 Minimum mixing: 15/20 kg
